EQUINIX HONG KONG DATA CENTERS

Equinix is the world's digital infrastructure company™. Digital leaders harness our trusted platform to bring together and interconnect the foundational infrastructure that powers their success. Our Hong Kong data centers are part of Equinix's global platform, Platform Equinix®, that provides a unique value proposition of availability, performance, proximity and connectivity.

Our five Hong Kong International Business Exchange™ (IBX) data centers provide 34,225+ square meters (368,000+ square feet) of colocation space, strategically located across the city to enable customers the proximity to financial district and key carrier nodes. Our facilities are business hubs for 540+ companies, with participation from key international finance, trade, network, cloud and services. Customers can choose to interconnect directly to 135+ financial service provider, 75+ network service providers and 145+ cloud and IT service providers.

HONG KONG IBX BENEFITS

- Leading regional internet exchange and one of the most carrier-dense network hubs in Hong Kong
- Financial hub of Asia with a strong financial ecosystem (135+ participants including banks, exchanges and multiple market data vendors)
- Metro Connect® provides a city-wide campus that allows each new facility to reap the benefits of existing ones
- Offers Business Continuity Trading Room (BCTR) service supporting recovery requirements for financial firms' front-and back-office personnel
