Stockholm IBX® Data Center

Equinix Stockholm Data Centers

Equinix is the world's digital infrastructure company™. Digital leaders harness our trusted platform to bring together and interconnect the foundational infrastructure that powers their success. Our Stockholm data centers are business hubs for 200+ companies. Stockholm customers can choose from a broad range of network services and can also interconnect directly to customers and partners in their digital supply chain. The Equinix Stockholm metro International Business Exchange™ (IBX®) data centers consist of three buildings with approximately 160,500 square feet (14,950 square meters) of colocation space.

The Stockholm colocation facilities enable customers to be part of a rich industry ecosystem and feature a dense concentration of network, cloud, media, content firms and enterprises. From its origins in the 14th century as a trading post, Stockholm has emerged to become one of Europe's most thriving, green and highly connected cities. It is a widely regarded global center of engineering, technology and innovation, and hosts one of Europe's most exciting startup scenes.

Stockholm Data Centers Benefits

- Stockholm's status as a key international business and technology hub is growing dramatically
- Three Stockholm data centers offer scalable technical space, leading operational resilience, world-class security and a high-performance network ecosystem
- SK2 is located approximately 10km from central Stockholm and is ideally situated as a disaster recovery site for many Stockholm areas

Building

Space	
Colocation Space	84,818 ft ² (7,880 m ²)
Building Type	1 floor, concrete steel frames
Parking	Adjacent to building (no charge)
Floor	
Floor Type	Raised
Floor Load Capacity	1,530 kg/m ² (313 psf)
Flood Plain Info	
Seismic Design Category	Low
Fire	
Fire Suppression	VESDA, high-sensitivity smoke detection system, Marioff hi-fog water mist, double-knock activation

Facilities

Power and Cooling	
Power and Cooling Density	3.5 kVA per cabinet
Utility Feeders	4 x 11 kV
UPS Configuration	2N; parallel redundant
UPS Redundancy	N+1
Standby Power Configuration	4 x 2,000 kW 6 x 1,818 kW generators
Standby Power Redundancy	N+1
Cooling Configuration	Chilled water
Cooling Redundancy	N+1
Security	
Physical	Man-trap entry, proximity access card and PIN
Human	24/7 on-site security officers
Electronic	PIN and card readers, biometric readers in common areas; additional biometric readers optional for customer cages, CCTV surveillance with 90-day video retention, motion detection

Products and Services

Data Center

- Private Cage
- Secure Cabinet
- Secure Cabinet Express
- **Smart Hands®**
- Equinix Smart View®
- Equinix Flex Space®
- Equinix Smart Build

Interconnection

- Equinix Fabric®
- Equinix Internet Exchange®
- Equinix Internet Access
- Metro Connect®
- Cross Connects

Digital Infrastructure

- Equinix Precision Time™
- Network Edge
